24 Mar - W-3

I gave instructions for conduct & dress at the meeting tonight - we are attending on behalf of Greetas, who, I reminded us, has to bring any dye which we would use in trying anyone - he insisted that we should go.

He spoke of the changes that have been instituted in our dress, speech & manner of referring to him - warned us that we could expect attacks in the press but that no one would hurt us physically - if questioned we are to say we believe in God & God is Love - we can expect of us preserving our health - we are not to give our addresses (this seems to be designed to protect the status of those who live in communes)

Mr Mayor & someone will be present - so will reps from the Nation of Islam & afterwards we will meet the Muslims - an opening will not be taken on SW 11

There was a healing period

The service was dismissed at 12⁰⁰ & we were asked to clear the aud.
