naps while I stood on corner waiting
for Betty - they gave me one - it is
very well done - concentrates on serv
to the people !!

I still had some traces of my cold
& had a very hard day - spent most
of my time on revisions of 2 of Maggie's
projects done earlier - the first esp
required diffc techniques & I had to call
on Dor for help sev times - her method
of instruc does not help me learn, as
she explains too fast & then makes the
correction hers - I need to be given
the proced & then left on my own to
work it out

check; I didnt realize it, as making
my monthly med. ins. paym. reduced
