At lunch went to the SFSU lecture in the Bicentennial series - The speaker X was an educational psychologist X who spoke on accepting risks in an era of rapid soc change - his main thesis was that it is not good for us to demand that every effort be pleasurable -

At lunch I did an eff rpt for Maggie - much work was coming into the off & Dor started to put a contract on ATS for Rita - a revis. of a leg. instrum. I had done previously was requested - Dor was going to do it because of the table I had had w/other one finished this morn, but because she was so busy she gave it to me.

ret

I got home at about 6:15

I ate leftover meat + vegs, green beans +
a salad - washed + changed clothes

Christians called about 7:45

He entered by the back door again -
we were passed around the people w/ red
scarves. she took them off - put because
of extra people from L.A., some people were
still sitting - there was considerable confusion
perhaps because people were tired from the
writing + driving maps

At the outset of the meeting I indicated we
had have a visitor - he said there should be
no point was used, such as sex

And opening was taken hurriedly

J. introduced Walter Healy, John Serul
member, as one of our strongest friends -
Healy shared Ketzner's plan concerning
L.A.'s parties in overthrow of Tohombe
backed by the Communist bloc

Quick point: ^{H.} attached income tax,
upheld priv. enterprise - U.S. is not longer
operating under constit. - our troubles are

out of the U.S. - it is intended to destroy
sovereignty of all nations - people like Rockefeller
will run the resulting city - "things
don't happen by accident" - Rockefeller
control just all the big companies - we
could have won in U.S. in any 6-yr period
had we been allowed to do it - H. Kissinger
is selling this city down the river -
following fall of U.S. a whole string of Com.
victories - Rhodesia & SA of So Africa are
not as racist as the press would lead you to
think - Communists are having trouble keeping
control in Red China - Communism always
results in just a few governing & having all
property & means are kept down

Hedley left in 1145 - J; he fights all
the forces which are the Communist enemy
the Rockefellers & I.R.S. - he doesn't realize
that only sharing will prevent big capitalists
from running every thing - there isn't
any free enterprise in this city - I don't
believe in these politicians - Hedley lives
more simply than some of the black
politicians who claim to be socialists -
J; the film was all wrong - J; none of
the candidates are any good - Jimmy Carter
backing ethnic purity - Abernethy & the L
thing has backing behind - we need to get
ourselves together & sell our thing & get our asses

in the P.I. -
over there where we can have freedom -
W. Andrews Young another of leaders selling
his bid 1/2

Some of you are holding back - you're
going to feel so guilty - no one is going
to follow us into the jungle - we ought not
to be here - we are a people born out of due
season - there will be no protection,
as long as you stay here - must we wait
until we can't take anything w/ us?

I w/ gr. vehemence stated that he did
not want those outsiders to know who he
is - we have a pearl of gr. price which
we shall keep from the swine

Starting to take an offering he demanded
sacrifices - now is the time to give up
houses & lands, husb & wife who won't
stand w/ you when they come to throw
you into a concentration camp - he asked
for pledges for another \$1000 from those
who had already turned in the first
\$1000 - he asked for expensive jewelry,
furniture, silver & so on - some
donations of this sort were made - ³/₄
by revelation he knew that everyone
shd give an extra \$20 - I pledged
\$20 above my commitment for May
