

8 Aug - T

I went over to Vernet's cottage to get my
t.w. - she said she had not put it in
acid of the rain

Had clips

Stopped at the warehouse - found a pink
towel, 2 white wash cloth & 2 bras - plus a
new comb - I had had two but can't find
one

Started with our summaries of the news -
I simplified as much as possible, interspersed
with an interim of events & heavy polit topics
w/ more emotional matter on racial relations,
suffering of child & so on, mostly in the U.S. -
was not able to do very much

Went to lunch

Lois & I had the adult class as a whole -
with the lower school girls & she the more advanced
she occupied the space in the school pavil. we
had used formerly & I moved my girls to the
second school pavil. as the tape playing for
newscasts was running at the other end of
the school pavil. - we had to move again at
1st o'clock when the girls high class came in -

I showed to both girls what we were doing
on the map, showing them the sheet given
us by Ruby Carroll (she told us have a blue
one), the paper sheets I had collected from
the British area & the small map of Africa
given to me by Joyce Lund - Curtis Winters

had volunteered to trace the map, which
he did, using the glass on the aquarium - he
did a good job - I then helped the class
members w/ the stems which had been
requested on their former life & their life
in Jonestown - I think this for the book
in which it is hoped the writer of the
Parallels View will coop w/ our staff - in the
case of young people, many were on drugs,
dealing in drugs, shoplifting, purse snatching,
some had been in jail & in the case of the
suns the misery of their lives in the ghetto
is the predominant interest: fear of being
mugged or stolen from, neglected by relatives,
poor housing and so on - I either corrected
the papers written by themselves or I wrote
down what they told me - I stayed on
after hrs to finish these - the day was hot
& I was very tired

Took a shower

Cont'd w/ on the news summary

Had dinner

Eddie Washington saved me a seat in
The pavilion for the rally

News review
I entered - he has been coughing badly - the doctor
has determined he has lung cancer & w/ the
chains upon him he can expect to live 3 or 4 yrs -
Mother says were going to have a doctor come in
to kid you by if he says operate, were going to operate - I
says only time he remembers kicking h' self was when he
jumped off the stage & his leg was healed - don't remember what
I said it, but can recall

I say he suffers when one guy hurts the other - have to take
some pressure from him - recalls making his mind
send Tommy Thason to Jonstown

Eyes are to be tested while putting gear on - Corless
Bould to go through, and other people

I read eval. list prepared by Tom D. Muffs
telling kind of the 1 & 2's soc. characteristics

I went over some of it rapidly - I want other
kinds of eval. to be considered thru J. C. Knud. -
he ops of seniors who have skills the you are
not learning - this to take off some of the pressure on
those who have diff. learning diff. concepts

Ruth Liben prepared by Keith Wright who must
doesn't want to marry her - she wants to have
abortive thinking she want to good mother - Mary J
say Keith has opid. of her for 4 w/ both mels & fondles -
to superior as he looks best for fact 2 who is he know
decided table - I has absolute homosef - Diane Smith
ed has been one of his conquests but she wrote about
it

I read his prognosis of his team
this will give leadership time to develop selflessness
not to make recognition - kind of it to meet approx.

Our cottage on floor because of Drez's rft on
dirty dishes, bed clothes & extra shoes on porch - as
Drez & I had made complaint, the others were giving a
warning but she & I went - another cottage was cited
also.

Steering Com. members, many, did not attend mtg
the night of required move - altho I had announced
St. Com. had met, some were surprised - others were not
sure under new admin. set-up they still were mem-
bers - they were told to go to S.C.

Barbara Simon when nights on Public Service
Unit - she says she doesn't get along w/ supervisors -
she is told to work 2 who will rft her request for
job change will be considered - I remember Barbara
had ad her relationship w/ Diane Wilkinson was
simply friendship but Diane ad it was more than
she admitted it was self.

Residents of one of the apt'ments were in the floor
regarding their chores - there were arguments
between supervisors & some of accused - I reminded all
of what he had ad about his little party in the mtg -
it was about 2⁰⁰ o'clock - we were dismissed about 5⁰⁰
11 - he expected the members to coop as much as
pos not to make excessive demands so that he
can serve the community & prepare the leadership -
an operation offers small hope of success & the gov't
will be put in a diff' pos. if he left the city as they
are under orders to arrest him - he was warned
thru that he admitted he was in constant pain -
Harry ad that an operation was not one of the
questions.

The rat in our cottage which we have never got
rid of was seen & heard - he was running all
and from bed to bed - the residents chased & hunted
for it but could not find it - I wanted to go to sleep
but Mrs. Costello got up a ladder and had me check
under bed.
