

11 Jan - W

Went to town again to finish my shopping - as I thought I didn't have much to buy, I didn't take a shopping bag.

On acct of a fire on Henry the bus took a diff route but turned on to Market St at 1<sup>st</sup> St which was handy for me - I went to the off. supplies store where I got my t. w. & got 3 t w ribbons - I saw a self. sew station on the same street & got a package of t w papers of second qual on which to make drafts & sew - then went to Merrills' & got a no. of items, such as clothesline, moth killer, the hydrogen peroxide the Te wants us to bring - then to the bus to Keplars where I purchased my shoes, got a light rain poncho w/ hood.

Ate some lunch.

I had not been able to get into my airline luggage all I had intended to take for immed use so I had to repack most of what was in the wooden crates - I transferred to my suitcase luggage a no. of items, mostly articles

of clothing - by use of my tote bag  
I was able to put everything in, tho  
I can't take a pillow nor my thermos  
bottle

I phoned Elikus at about 9:30 - the  
marsh, the second of the whs, had  
been called off - Judy told me the  
one on M had been subjected to some  
harassment - Elikus had hung up  
bef I cd give him my apt no & he  
had had some diff finding it

I went in to the TA at 5<sup>00</sup> expecting  
to check in for the trip but find that  
th was the day instad of W - I had not  
personally had inform of a change tho  
th was - I shd have inquired  
but didnt think of it - I was not  
disappted, as I can use the extra time,  
esp. in getting jnl entries done - I  
learned my traveling companions are  
Harold Cordell & Roosevelt Turner -  
Judy told me Dickie & incidentally had  
requested that Turner be sent over -  
Father consented -

11<sup>00</sup> I am told that among the reasons  
for re-scheduling flights is to make it  
more difficult for the correct info to

look out to those who might intend to  
interf w/ the flight, & to prevent the  
appearance at the airport of relatives &  
friends who might make processing more  
troublesome.

Altho I had forgotten there wd be a  
serv. ton I had to stay for it - I was  
so tired, however, that I asked to be  
excused from going taking

The serv. was dated & blessed by  
much singing - it was concluded about  
10<sup>00</sup> o'clock - the wazey came to the  
altar & there was a sp. treat for  
children, which was a sweet

I didn't take my suitcase - I had  
some toilet items in my tote bag & I  
stapled on my sleeping bag which I am  
giving to Wanda

I got the nuts & ate some dates &  
walnuts - I saved some for the trip  
& left some for Wanda

I went to sleep at 12<sup>00</sup>
