

18 Jan - 5

got to sleep this morning - got up about

9:30 showered & went to bed

Went to get my luggage checked out - had  
to wait almost 2 hrs for Joyce Touchette to  
get around to me - Pining Niece (formerly  
Pining Johnson, now the companion of Rob Niece)  
helped her - She went through all luggage  
incl. purses - if she had more than a mini-  
mum amt of clothing & supplies & so forth  
the extra items were sent to the warehouse -  
all this & things for others had to be turned  
over to Bill Kenin (formerly Tappan) to deliver  
as we had been told on the boat - all  
medicines, even some items had to be turned  
over to the nurses & will be given out as  
required - Joyce was very kind to me

Went to the med. dept. to have them check  
the bites on my ankles - Bob Parks had  
examined on boat & gave me a shot which  
might make me sleepy

Went to the office of our college to the  
to see - discovered the Harriet  
then - the other side is  
was now as w/ Norm -  
& she consented

Washed out some clothes

Shower, showered in the apt.

Went to come over the house

from the Radio Hut where I spend most  
of his time

I took through my luggage - all is in  
good shape, even my L.W. apparently

Went to dinner which is served from  
about 5:30 to 7:00 o'clock

A People's Rally was at 8:00 in the main  
pavilion - I on the loudspeakers gave us some  
remarks I think Hicks was in charge of  
some entertainment items - the kindergarten  
did a socialist version of The Three  
Little Pigs - John Stoen was a member  
of the group - he is now called John Jones &  
invited me on the platform

I spoke of the sit in the U.S. where  
NAACP is compromising w/ the establishment  
& speaking of big gov't, big labor, big industry  
& big minority - Huey Newton & his people -  
I also spoke of recent actions of the conspir-  
acy against us - they made an attempt to  
have Debbie Touchette & Mike Clark  
extradited for a crime they didn't  
commit - the Guyana Gov't refused to do so -  
Tim Stoen is now in Georgetown - I had  
sent Sharon Amos to demand of the Gov't  
that they get him off our neck & they complied  
& shipped him out - Stoen had said he  
would have John to get to his mother by  
Jan 1 - it is now almost the first of Feb  
& he doesn't have him

28 Jan - S-2

I ran across a Herb Caen article devoted to P.T. - this superficially harmful, he wrote it to do us good - Caen accepted that I was the father of John, that Tim Stoen had asked in the most flamboyant terms for J to give Grace a child, ostensibly his, & that Tim was a transvestite despised by Grace - Caen also 3 times slipped in a remark to the effect that J had been cleared of all charges of incest by the authors - Caen implied that Stoen was sterile, whereas (he said) I had fathered a child since the birth of John

Patty Curtmill gave a hilarious account of the antics of Chevinis, Tommy Johnston & hers going up the river to sell contraband items of procured citrus fruit for us - there 3 are regularly engaged in this:

I spoke indignantly of having to send Sharon Amos to Wash & Norman James back to the States where they did not want to be, because he cd count on them to carry out his orders - he referred to those who cdnt be depended on & were got in table or were lazy here

The mtg was over about midnight I rode to the college & went to bed
