

4 Feb - 5

The Sov ambas to Guy & a Tass
repr were to visit us today, so
arrangements were made to greet
them - they were expected to attend
the meeting & stay overnight

I talked w/ Dick Trypan & my hand-
written drafts of my jib, to find out
whether he knew anything about them -
he did not - he suspects they were
burnt, along w/ other mater which was
destroy'd (regrettably, he thinks) when
the TD leaders were afraid the investi-
gative agencies might force an entrance
& examine our files - we talked a
while about Dick's proj. of interviewing men
on their backlogs - I told him that
in the adult prog I intended to use
that type of material as much of the
content of the course.

Had on yesto's girl entry

Phyllis made some changes in the paper
for presentation mee. serv. & the last page
she wrote in 2 dif. versions, according
to whether the guests are ^{the} Amer. or not -
Then she made further changes which adapted
the ppt to presentation to the rally by
Dr. Lawrence Sobckett as physician

The visit of the Sov. reps was cancelled
on acct of an airline strike - I indicated
that he blamed the strike was provoked by
fascist elements who are trying to prevent
us from having funds - as the Sov. visitors
were not coming, I did not have to type
the change verbatim of the medical rpt
ypt

Later J. came on the loudspeaker & said
some high-ranking U.S. milit. reps
may visit us soon & I wondered whether
this was to show their solidarity w/us
to our enemies

Had a nap for 2 hrs in the early aft -
a grey & white kitten which I am told
may be Chris Talley's came to see me
today & slept cozily on Diane's bed - I have
picked him up & petted him - I brot him
some food from my lunch - I brot him up
w/ me to my upper bunk & he slept w/
me

Jan Durvich came around to ask whether
I wd come to the pavilion to talk w/ her &
Barbara Halber about their lesson plans for
next wk - I consented - I suppose that
either Tom or Jenn herself had initiated
this mtg, as I had rpt'd diffies. of
Commun. Div/Barb. - the latter was not as
hostile as formerly tho still quite rigid

4 Feb - 5 - 2

in her thinking - I was able to see my cons.
help in suggesting methods of conducting
their planned work as reign. of complete
sentences. - Tom came in on the meeting -
added some useful ideas - James felt
better because she got some sense of
coherence in the wh's lessons which was
one of her chief aims

I got my fan back - Elte Thompson had
picked it up when I left it at the ave class

The people's rally was at 7:45 - we had apts
first from aves from which further apts
were to be heard - the first subj. on which
cons. time was spent was inaction control
& spraying on which Marie Lawrence the a
prom. pt.

It was reva that Therese Willhite had
given birth to a baby boy

I was in command w/a id wing radio
prog being conducted in the States on the
subj. of the Te - he came into the mtg
at 1:30

A long disc th feet on dogs, began by
arrangements from speaking dogs or performing
abstentions on those dogs already present -
various views on dogs were heard - John
Gates & Hande Swinnay were 2 of the
most knowledgeable people on the subj. & James
Edwards has much to do w/them on the grand
Cover C-3-A-12 (14)

Rpts were heard from John Baron on
fruit-making, on bananas from Binoy
Kutules, animal feed by Kanda (who had
done much research on the subject), & saw
others.

Good material on agric was required
in the sch & everybody wd be tested in
or class on their behalf, or items disc'd
for - we want to help Japanese effort
trade & it is good when this coincides
w/ what is to our own benefit

There was disc of fishing God style w/
poison & our did. members are going to
bring in the vine which is used & our
people are going to cut through the brush
to the river from & may find the vine
then

Patty Cartmell described her last previous
ment trip w/ Chew. & Tommy Johnson,
giving much amusement to the audience

A complaint was made about the damage
Len Perry does to equip (& passengers)
when he drives a tractor - he was ordered
to change his ways

Shel Patricia, the new baby, was bro't
in & placed in Jo's arms

A projected tractor trip to get cassava
stakes was called off because the road is
too dangerous

Info was rec'd (by radio ton seemingly)
that 250 members in the U.S. want to
come to Guy - I feel it was wise to stop
