Lynnette Jones, J's mother, has died & her grave is here - I had mentioned that she was buried among the children to emphasize life

I stopped at the office & asked Joyce Touchette for an order to Pop Jackson for some chairs for our cottage - she gave me a request for 2 - I visited w/ Mom & Pop Jackson in Troolie Tr. 1 for a few mins - Pop let me choose 2 chairs & a potstool he already had

Saw Tom in one of the sch. tents & we had a good convers. - he was more liberal than formerly about giving me responsibilities in that Eng. teaching prog - he proposed I assume supervision of the Untrained Eng. Teachers - I told him titles were irrelevant but I was glad to do all I could - I was heartened

At home I had a nap - it was very pleas. w/ rain falling

Took a shower & went to dinner - I have not much appetite & have been cutting down on rice drastically but I enjoy the vegs

Spent a few hrs reading Corner Radicalism was to meet at 11 in the pavilion w/ J & our h.o.s. Eng Teachers but the film we saw in Georgetown, The Outfit, which was shown here, was being shown for the last time - I missed the first part but set through the

rest of it - the sound had been so bad when the first was shown in Georgetown that I had not understood it - because of J's explanation of the theme I understood better its relevance to our concerns

At the film I saw no sign of any of the Eng Teachers - I went to work & saw Dick W & I decided to watch the film & meet w/ the Teachers afterwards if they were there. Trapp w/ Shirley Hicks in the dining area drinking coffee & whisky - D. told me he had perm. to have coffee when he would like - he had not been told about the mtg. - he did not agree w/ the idea of having such a mtg. now & he thought a mtg. of all Teachers should be held as many of them were using extremely faulty methods - I proposed we have in-plant teacher training sessions & he seemed to agree, but it was not greatly encouraged by his attitude.

Went to bed around 1:00 - didn't turn the light on
