

29th - Th - 2

conversing but I managed to win all night

About 11<sup>00</sup> o'clock a confrontation w/  
Don Fields who had been on the floor  
night was on the lounge sofa - he had  
gloried taking out his hostility on child.  
by saying that I did so - I denied he  
ever told out hatred on anyone - Fields is  
a white man from L.A. whom I did not  
know

Diane & my other roommates reminisced  
about some of the dangerous events the mission  
has been through since their arrival - at  
one pt I asked on the radio whether there  
was any other city which wd take our people  
in & they were prepared to live w/ nothing  
except what they had on their backs - Diane  
slept 3 nights w/ the children under a tent  
I went to bed at 11<sup>00</sup>

3 Feb - F

Remembered at 1:15 time this morn.  
to go to the medical office & take my premarin -  
Tend to forget it

Att'd a cottage & started on girl  
entries - Phyllis Chaiken - request for  
typing job - type on Jonestown med. pres.  
to go to visitors & she sd she'd bring  
paper later

I on full coast system commented on  
fact that Com giving aid to Pinochet's Chile  
or Somalia anti-ethnic regime - his  
spin that during govt for own pol but from  
U.S. nationalistic, supports US & Eur, and  
to be clear on subj.

Went to lunch

Observed Jan's class, then Tropp's - both  
interesting - Jan needs more rapport w/ class -  
Dick using teams to foster soc. comp

Had Jan a critique on her class - she  
depressed - feels lousy - she seems  
very tired - I gave her some suggestions  
but she put forth some objections

Talked to Carolyn Layton when she finished  
her class & by Teachers' mtg - asked her  
about my girl mso - the typed ones in  
her custody & some letter ones sent to her  
are in a "safe place" - she does not know  
about the notes & drafts taken from me at  
the mtg (turned over to Tom Adams) now

the ones I later turned over to the TC  
(first in April 1977) - she thinks these  
may have been destroyed as the TC was  
afraid they might fall into the wrong  
hands - In spite of what Terry Buford  
told me, she did not know of anyone  
using them for writing about the TC - she  
will make inquiries - she said there  
was no prob know about written mater.

We joined the teachers' mtg which  
had started - This F mtg of 3 or so is a  
mtg to get prog & problems of all the h.s.  
teachers - apparently there is a Th mtg to  
disc h.s. teaching methods & Marie Lawrence  
questioned whether this nec. - I bel the deci-  
sion was to arrange it on Th on a rotating  
basis

Tom bro't up the quest of adult ed as a  
prospective proj. for me - Barbara Walker  
seemed to me to show hostility, tow me  
in regard to her adult class in which I find  
she had only teachers vocal a list as well as  
conducting Pechthensis for adult women - she  
has only 8 in former class - Tom also pro-  
posed to take a soc. class of people who have  
trble w/ the report - he will consult Rob  
Christian who is in chge of the soc classes

Bea Morton showed a sample of a full page  
of which each of us will have to turn in  
weekly showing all actors of more than 15  
min. - The amt of paper needed was remarked  
upon - prob. forms can be duplicated in  
the states
