

3 Feb - F

Remembered at 1:15 time this morn.
to go to the medical office & take my premarin -
Tend to forget it

Att'd a cottage & started on girl
entries - Phyllis Chaiken - request for
typing job - type on Jonestown med. pres.
to go to visitors & she sd she'd bring
paper later

I on full coast system commented on
fact that Com giving aid to Pinochet's Chile
or Somalia anti-ethnic regime - his
opinion during govt for own pol but from
U.S. nationalistic, supports US & Eur, and
to be clear on subj.

Went to lunch

Observed Jan's class, then Tropp's - both
interesting - Jan needs more rapport w/class -
Dick using teams to foster soc. comp

Had Jan a critique on her class - she
depressed - feels lousy of org - she seems
very tired - I gave her some suggestions
but she put forth some objections

Talked to Carolyn Layton when she finished
her class & by Teachers' mtg - asked her
about my girl mso - the typed ones in
her custody & some letter ones sent to her
are in a "safe place" - she does not know
about the notes & drafts taken from me at
the mtg (turned over to Tom Adams) now

the ones I later turned over to the TC
(first in April 1977) - she thinks these
may have been destroyed as the TC was
afraid they might fall into the wrong
hands - In spite of what Terry Buford
told me, she did not know of anyone
using them for writing about the TC - she
will make inquiries - she said there
was no prob know about written mater.

We joined the teachers' mtg which
had started - This F mtg of 3 or so is a
mtg to get prog & problems of all the h.s.
teachers - apparently there is a Th mtg to
disc h.s. teaching methods & Marie Lawrence
questioned whether this nec. - I bel the deci-
sion was to arrange it on Th on a rotating
basis

Tom brot up the quest of adult ed as a
prospective proj. for me - Barbara Walker
seemed to me to show hostility, tow me
in regard to her adult class in which I find
she had only teachers vocal a list as well as
conducting Pechithensis for adult women - she
has only 8 in former class - Tom also pro-
posed to take a soc. class of people who have
trble w/ the report - he will consult Rob
Christian who is in chge of the soc classes

Bea Morton showed a sample of a full page
of which each of us will have to turn in
weekly showing all actors of more than 15
min. - The act of paper needed was remarked
upon - prob. forms can be duplicated in
the states

3 Feb - F-2

Dr. h.s. runs on a 10 wh sched. - in 4 whs we will be starting a new 10-wh period. Tropp sd we shd start planning for lge blocks of time & plan courses actually integrated w/wh done in the common. - this was discussed

Thurs who are probly were discussed & discept measures proposed & adopted

I went back to my cottage & typed the paper wanted by Phyllis

X The shower & went to eat

X Socialism classes met at 7:30 - all members of Jontown are divided into gyps for this disc - Introduction to Socialism

I left - only the Teachers have copies - the classes are too close tog w/ little barrier from them that it is hard for the teachers to make themselves heard. I joined Don Jackson's class as he had indicated he wd like some help - I volunteered some remarks twice, the last time on thesis - antithesis - synthesis. - something I sd or didnt say seemed to annoy Barbara Walker who is in Don's class. Dick Tropp, passing by, gave me a humorous rebuke for not having recognized her

11:15 I left my pouch somewhere & didnt find it

A film was shown aft the soc disc. I (over) C-342 (10)

about 9:00 - I intended to attend but
couldn't find a seat

Went home in a depressed mood, as
so many things had gone wrong.

At the film was over, J. came on the
radio denouncing it & calling for disc
on its flaws - "Some of you have such
impressionable minds you'd be following
Hitler" - Diane came home w/ others
having seen the film & sd it was not good

I walked up w/ Diane as far as the
shower & went on to the toilet - J. saw me
on the path & called "Hello, darling" which
made me feel better

I went to bed

Was awakened at 5:30 by some pers.
inquiring which cabin ours was &
didn't get back to sleep
